

Building Alternative Livelihoods in times of Ecological and Political Crisis 5-8 JULY 2021 - SCHEDULE V1.0

Date	Start time	End time	ROOM 1	ROOM 2	ROOM 3	ROOM 4	ROOM 5	ROOM 6	ROOM 7	ROOM 8	ROOM 9	ROOM 10	ROOM 11	ROOM 12	ROOM 13
5th July 2021															
1200	1330	PLENARY: Ecological Economics and Activism													
	THEME	Alternative economies	Transitions / Designs for the future	Urban and spatial planning	Arts and communication	Green New Deal	Rural/agriculture/food	Materials, Energy, Waste and Climate	Alternative livelihoods, well-being and ways of living	Alternative livelihoods, well-being and ways of living	Communication, Education and Pedagogy	Just Transitions	THE LAW STREAM		
1345	1515	994	1005	93	1093	1006	1238	1449	1220	114	1285	1479	1104	Session 13	
	Global Tapestry of Alternatives	Future Infrastructures I	Gandhian Economics today	Working with Finnish election candidates and MPs on degrowth themes	The Circular Economy at a crossroad: Technocratic Eco-Modernism or Convivial Technology for Social Revolution?	Agriculture after growth (1)	Working towards Zero Waste and the Developing World: How Zero Waste helps transition to a Degrowth Economy	Ecosystem people, livelihoods and sustainability (1)	Learning key lessons from indigenous peoples and local communities to build a sustainable and desirable future	Cooperation of Art, Science and Education: The results of a community scriptwriting process applied in higher education 4€" an interactive experience on Degrowth	Prefiguration in an Ecosocialist Transition	Post- growth policy-making, law and governance I			
			Chinese Eco-villages: Playing 'Edge Ball' with Authorities?						CSA a revolutionary sustainable solution?						
			For a radical degrowth agenda of the future city, one should look at the village						The self-managed indigenous nations in the Peruvian Amazon as a path to sustainability						
			Agrarian Question in Socio-ecological Transformation: A Study of Peasant Reproduction in India						Community-Led Economic Initiatives and their Potential to Contribute to the Development of Post-Growth Local Economies						
1530	1700	120	1505	1208	81	Session 3		2000	1114	1732	118	1357	3001 - Ireland	1161	Session 13
	Circular Food Systems: Leading the Way to a Circular Economy	Future Infrastructures II	Academia and urban activism realities: can we play together?	Are Washing Machines More Important Than Smart Phones? Using participatory art to communicate Degrowth	Capital accumulation and degrowth transformations: a 'Capital as Power' perspective	Agriculture after growth (2)	Degrowth, Globalisation and the Climate Emergency	Ecosystem people, livelihoods and sustainability (2)	Alternative ways of understanding ecological conservation practices to enable environmental justice for all	Engaging policy-makers with ecological economics and degrowth ideas	Climate Breakdown, Political Turbulence and Conflict Transformation: democratically navigating a just transition to a post-carbon and post-growth future	Post- growth policy-making, law and governance II			
	Plant After Reading				Non-monetary economies and degrowth				Applying Insights from Transformation Research towards a Strategy for the Degrowth Movement						
	CobBauge				Solving the productivity puzzle: exploring the role of construction and ontology using expert elicitation.				Innovations for degrowth						
	Sanitation as a path for local development: a study case in Tomás Balduino urban occupation								Footprint family at the local scale						
1715	1845	1074	1711	995	4000	1568	86	1731	76	1000	1730	997	1162	Session 13	
	Decommodification and Democratization of Essential Resources	Are we doing what's required for system change?	The role of geography/space in conceptualisations and practices of degrowth	Book presentations session	Macroeconomic and political economy challenges of a Green New Deal	Evaluating the multidimensional impacts of agroecological transitions for safe and inclusive food systems	Aviation and degrowth	Insights into achieving Sustainable Development Goals through degrowth	The Anthropocene and Degrowth from the perspectives of Latin America (1)	Teaching Ecological Economics in Undergraduate Education	Participative Design of the Just Transition	Post- growth policy-making, law and governance III			
						Growing Degrowth: The Role of Urban Gardens in the Transition to a Prosperous Way Down			A discursive tool for sustainable development impact assessment						
						Ecological-economic modeling of pollination complexity and pesticide use in agricultural crops			A scenario-based analysis of the implementation of Sustainable Development Goals (SDGs) by 2050: A case study of Iran						
						Creative spaces for Seed Commons through alternative social practices:			Human and Ecological Well-being as key to the transformational potential of Sustainable Development Goals (SDGs)						
1900	2030	PLENARY: tba													

6th July 2021														
10.15	11.45	ESEE Meeting												
1200	1330	PLENARY: UBI, UBS and Care Income												
THEME	Materials, Energy, Waste and Climate	Alternative livelihoods, well-being and ways of living	Urban and spatial planning	Green New Deal	Labour and Just Transitions	Rural/agriculture/food	Feminism	Theoretical perspectives	Alternative economies	Communication, Education and Pedagogy	Decolonisation	THE LAW STREAM		
1345	1515	121	1155	1017	Session 4	1627	1084	984	1042	1044	1741	113	1164	Session 13
	Local Energy Planning in Rural Vietnam: The remineralization of Europe Sustainable Seaweed Biorefinery Transition Macroeconomic implications of degrowth in the global North for the global South	The Scottish Degrowth Commission	Towards urban degrowth: Spatial planning and the future of cities		Trade unions, the climate crisis, and degrowth	Food Matters 1	FaDA - The Feminisms and Degrowth Alliance (FaDA)	Social Ecological Economics and Degrowth 1	Growth, technology and the bioeconomy	Whither ecological economics and its contribution?	Why we need cosmological limits to growth: on cultural direction of degrowth transitions Building Alternative Livelihoods in times of ecological and political crisis Eco-cultural aspects of Degrowth Decolonizing food systems through agroecology	Post- growth policy-making, law and governance IV		
1530	1700	1432	1031	103	92	71	982	985	1042	1243	1059	3004 - Ireland	132	Session 13
	Linkages among Carbon Dioxide (CO2) Emission, Health Spending and Economic Growth: A Study SAARC Member Countries	Systemic Concepts for Change in Times of Climate and health Crisis	Exploring relational values of urban blue spaces through Participatory Video Urban nature and economic growth – compatible or discordant? Degrowth and decarbonisation for future mobility Governing the commons?	Getting to Net Zero Can the Green New Deal explicitly incorporate degrowth without losing its popular potential? The Green New Deal as a progressive way forward to addressing climate and sustainability emergencies Cars, carrots and karaoke: funding pensions in a degrowing economy	The potential contribution of post-growth instruments to resource conservation Integrated analysis of PES policies, landscape and livelihoods The EU's potential for promoting an eco-social agenda Policies for equality under low or no growth	Food Matters 2	Coming to Terms with the Care Crisis - Policy Proposals for the Societal Organization of Reproductive and Care Work	Social Ecological Economics and Degrowth 2	Empirical Insights about Sustainable Welfare and Eco-social Policies I	The Potential of Universities and Education for a Degrowth Society	Book-ending growth - empire, ecocide and Ireland	Property Beyond State and Market: what can we learn from China? Water polo or hurdle race? Competing perceptions on science-policy interfaces from Central Eastern Europe The case of the German partnership for sustainable textiles as a platform for dialogue and learning A systematic review of justice and water governance: from justice to adaptation?		
1715	1845	1333	1468	201	87	1289	1148	1712	1210	1344	1718	Session 11	130	Session 13
	The global frontlines of the bioeconomy	Future Landscapes of Labor	Degrowth visions Urbanization beyond ecomodernism Nothing else matters: measuring degrowth in an urban context Urban Social Movements for Degrowth of Unsustainable Energy Production	Alternative Social Imaginaries Coal power in South Africa Green employment Deepening colonial relations: questioning the "green" narrative from extractive zones in Chile	Resistance to Extractivism in South Africa	Food for Degrowth	Interlocking crises, intersectional visions:	Social Ecological Economics and Degrowth 3	Social Trends and Structures in the Transformation towards a bio-based Economy	Teaching ecological economics		Degrowth and Law in Bolsonaro's Brazil Animal Law and Ecological Economics Economic Valuation for Rectificatory Justice: A Critical Appraisal based on the Oil Spill at Gencelli Bay, Aliaga, Izmir, Turkey Indigenous Perspectives of Inequalities		
1900	2030	Plenary TBA												

7th July 2021															
1200	1330	GANE													
THEME	Alternative economies	Alternative livelihoods, well-being and ways of living	Theoretical perspectives	Transitions / Designs for the future	Organisation and business	Rural/agriculture/food	Feminism	Alternative livelihoods, well-being and ways of living	Materials, Energy, Waste and Climate	Communicatio, Education and Pedagogy	Theoretical perspectives	Climate and social metabolism			
1345	1515	1523	1615	990	1012	Session 5	97	986	74	95	117	1022	70	Session 13	
	Post-capitalist, anti-capitalist, and non-capitalist practices in the context of a degrowth transition (I)	Convivial Clothing	What do we know and how? Epistemology and ontology for a time of crisis	Breaking the habits of capitalism		Potentials for an ecological transition of urban food systems – the case of Vienna	Work, Livelihoods and Everyday Ecological Practice	Crafting the Story	Green energy: ecological break-through or same old consumption-growth path?	Understanding Unsustainability and Degrowth	Inventing economies for the doughnut-future: Performativity, valuation and the politics of market arrangements	Unpacking the effect of economic theory on climate change modeling			
						Don't Bite the Hand That Feeds You		Maker Culture Bolsters Production Resilience in the Face of Uncertain Futures	THE FUTURE BIOENERGY POTENTIAL OF AUSTRALIA	Till the Land, Defend the Land		Low carbon and low energy futures			
						Alternative Food Systems as Alternative Economic Systems		Brisbane Tool Library: An Economic Degrowth case study	A comprehensive energy-return-on-investment indicator: Estimating the overlooked role of capital, energy trade and muscle work	Education Beyond Growth		Impact of Extreme Climate on Household Social and Aggregate Expenditures in Uttarakhand: A District-level Quantitative Assessment			
						Cultivating regenerative food cultures		Borrow, reuse, pick – an exploration of waste and commoning	Rebound effects erode half the energy savings from improved energy efficiency: implications for the Paris Agreement			Degrowth and Environment in Turkey			
1530	1700	1524	Session 2	991	104	979	85	1416	1613	3009 - Ireland	1742	1295	82	Session 13	
	Post-capitalist, anti-capitalist, and non-capitalist practices in the context of a degrowth transition (II)		Thinking our way through crisis	Universal entitlement to necessities	Forms of Organisation and Production for a Sustainable Degrowth Society	Farmers as Ecosystems Regenerators;	Roundtable: A Feminist Decolonial Approach to Degrowth	Alternative Academic Livelihoods	Extractionism and Sacrifice Zones in the European Periphery	Lessons and experiences from early-career ecological economists	Human-Earth Relationships through the lenses of Behavioural Economics, Collective and Individual Decision Making	The impact of changing GDP accounting conventions on evidence for decoupling and 'green growth'			
				Are maximum-minimum income ratios politically feasible? The case of Kerala, India		Environmental Attitudes of Romanian Farmers: How the Romanian Bioeconomy Could Be Developed						Exploring the links between total factor productivity, final-to-useful exergy efficiency, and economic growth			
				Modelling the nexus of environmental inequality, growth, and sustainability in developing countries		Representative farm-based sustainability assessment of the organic sector in Switzerland						What does decoupling decouple from?			
				Buying into inequality: how planned obsolescence contributes to a more unequal (and polluting) society		AGRIVOLTIC SYSTEM IN FAMILY AGRICULTURE: APPLICATIONS IN THE BRAZILIAN NORTHEAST					In search for meaning: cultural and psychological aspects of the degrowth proposal	Sectoral and geographical diffusion patterns of technology for a low-carbon world economy: an input-output approach			
1715	1845	1030	Session 2	112	78	96	1733	Session 7	1207	81	131	89	1717	Session 13	
	Mapping the social forces that have the future of mankind in their grip and the societal learning (management) arrangements needed for a sustainable society.		From Innovations to Exnovations	New Scenarios for Radical Social Transformation	Fit for Purpose? Clarifying the Role of Profit for Post-Growth Economies	Food Matters 3		Sharing as an alternative livelihood	Energy transition, employment and poverty	Ecological and holistic educational practices for local sustainability	Not in my backyard but on the Planet	Metabolismo social y extractivismo minero en México			
			Global and regional probabilities of major nuclear reactor accidents	System Mapping Degrowth	Searching patterns for degrowth in organizational designs and logics				The dependence between income inequality and carbon emissions: A distributional copula analysis.	Navigating the troubled waters of critique in the search for a fairer and more sustainable world.	Zero Growth				
			Risky recommendations	An African perspective on ecological transition	Cooperating with 'Open Cards' – The Role of Small Intermediary Businesses in Realizing Sustainable International Coffee Supply				Useful Exergy and Economic Growth	Biodiversity and landscapes: A multifaceted island approach by the School of the Planetary Garden of La Reunion.	Development, economic growth, and species endangerment				
			Aestheticizing Catastrophes? A Comparison of the Western and Japanese Approach to Art Creation in View of the Climate Emergency	Leverage points or constellations? A network perspective on action situations for sustainability transformations	The All-inclusive neighbourhood concept				Economic and energy efficiency of daylight saving time (DST) policy in comparison with market-based solution	Pandemics, conservation and human-nature relations	Target Ecological Limits and Not Economic Growth				
1900	2030	Plenary TBA													

8th July 2021														
1200	1330	Trade Unions and Just Transition												
THEME	Alternative economies	Alternative livelihoods, well-being and ways of living	Rural/agriculture/food	Materials, Energy, Waste and Climate	Transitions	Rural/agriculture/food	Feminism	Theoretical Perspectives	Arts	Economy and livelihoods after Covid-19	Designs for the future	THE LAW STREAM	Economic measures and valuation	
1345	1515	75	83	108	1049	105	1	106	94	1574	115	1216	100	99
	Is working less really good for the environment? From a systematic review to new strands of research	Do people think they have enough? A subjective financial sufficiency assessment	BAMAOKO IN TRANSITION, BETWEEN PRE AND POST DEVELOPMENT ERA	Degrowth and basic materials 1	How to imagine a good life	Rural/agriculture/food	Living well on a finite planet - Rethinking healthcare at the end of growth	A claim towards ontological pluralism	Writing ourselves into the future - creative writing session	Resisting the call to consume: exploring the construction and contestation of the 'citizen-as-consumer' during COVID-19 in the UK.	Knowledge production for degrowth	THE POLITICAL ECONOMY OF FOREST GOVERNANCE, FOREST SECTOR REFORMS AND THEIR OUTCOMES IN EAST AFRICA	Are alternative measures of economic well-being and the Sustainable Development Goals sufficiently representing the well-being economy?	
	Work in historical perspective: Lessons for the debate on (de)growth and the environment	Japan's Demographic-Momentum on a Deflationary Spiral Tracing a Path toward Extinction: Ecological Economics of a Declining Population	Sustainable Livelihoods, Agrarian Crises and Institutional Innovation		Exploring narratives of socio-ecological crisis and transformation amongst young environmental activists in North East England	Recent land and credit enclosures in Mexico	Care and transitions to degrowth. A comparative study of Italy and Chile in "jobs vs. health and environment" conflicts	Reconceptualising Freedom for a Degrowth Society		"Building alternative livelihoods in times of ecological and political crisis" and having it last long term, requires a corresponding alternative economy		The privatization, commodification and commercialization of nature – payments for ecosystem services as a neoliberal conservation instrument?	Plural values of forest ecosystems for sustainable community development – a case study in Norway	
	Technical change and the future of work: inflation, immiseration or stagnation?	Long-term feedback mechanisms underlying societal collapse	Living beyond means in the Indian Punjab: Intensive agriculture, Ecological Crisis and the Role of the State		Imagining climate futures: two paths for continuity and change	Agroecology in Mexico	Care works, capital bases and the capability approach	Towards a science of deep transformations: Initiating a dialogue between degrowth and critical realism		The ecology of Economics and our need to recognize that we are inherently, Homo ecoherens (ecohering Humankind).		Framing mountain agro-pastoral systems as dynamic social-ecological systems	Valuation and Prediction of Biomass and Carbon of the Sundarbans	
	Self-Determination Theory as a Blueprint for the Transformation of Work	Losing Interest: The Moral & Legal Prohibition Against Interest	Tanzanian Agricultural Development and Degrowth – a(n) (im)possible Symbiosis?		Mental models of sustainability: the degrowth doughnut	Characterizing climate resilience of Indian agro-ecological systems		Walking forward together		Ecosystem services and COVID-19: People's perception and knowledge		Political Ecology of Common Ponds in Central Kerala, India	Towards a framework of sufficiency policy: conceptualization and operationalization for empirical research	
1530	1700	Session 1		1193	1111	974	3002 - Ireland		111	1575	80	1509	1456	109
		From excess to sufficiency	Rural Livelihoods	Degrowth and basic materials 2	Green Politics on the island of Ireland	The Underexplored Narratives of Rural Livelihoods in Southeast Asia	Intersectionality and Invisibility: Climate Crisis, Degrowth, and Gender Justice for Indigenous Women in Southeast Asia	Why the Degrowth Movement is not a Polanyian Countermovement	Imagining into the Real - a dramaworkshop to embody concrete visions of roads to the future	Resisting Austerity in the Era of COVID-19: Between Nationwide Mobilization and Decentralized Organizing in Ecuador	Digital degrowth – degrowth digitalisation?	Sufficiency and the Law	MATERIALISM IN THE CONTEXT OF COLLABORATIVE CONSUMPTION	
						New Ruralities: Imagining smart rural transitions and new realities	Women Emancipatory Alternative to Corporate Capitalism? The Case of Kerala State Instituted Kudumbashree Programme	The role of productivity in constructing our capitalist present and its potential for organising degrowth futures		The health crisis and the economic program of the Bolsonaro government			Evaluation of the impact of agroforestry systems on the economic and ecological flows of agroecosystems in family farm units in Serra dos Tapes (RS/Brazil).	
						Thinking about agroecological economics	Gender in climate change: women and gender-sensitive adaptation policy-making in China	A general theory of degrowth		Reverse migration during Covid 19 and agricultural employment and productivity in India			Natural Capital Accounting: Case of Mineral Resources in India, 1995-2015	
						Proposals for decarbonisation of energy intensive industries in Galicia	Shrinking regions, but not shrinking the 'good life'	Degrowth as Regeneration		Growth and pandemics: An epidemiological 'paradox'			Toward a Real Measure of the Economy	
1715	1845	90	1634	1661	84	79	88	500	1702	1577	1683	1421	1037	Session 13
	Alli Kawsay (Buen vivir) in the indigenous movements of Colombia-Ecuador: political-economic practices as a global model, in defense of the rights of Mother Nature in the global south.	Degrowth for whom? Ecological Economics and Animal Rights	AGROECOLOGY and ECOAGRI-FOOD SYSTEMS	Struggle for the Sands of Xolobeni:	How to implement degrowth in a systemic way? Introduction of the Transitional Legal Approach as a tool for translating alternative perspectives into the law and policy	"Que no planten hasta los rios": Peasants' land use and water provision scenarios for Cauquenes, Chile.	Assessing the effect of street connectivity and land use on healthy lifestyle and improving quality of life in central business districts	Radical Ecological Economics	Art-based approaches to socio-ecological transformations: Performance based practices	Silver Linings Build-Back	Designing alternatives: Sketching the outlines of a degrowth-town	Ecological Law and Degrowth: Emerging Themes		
	Rethinking Development Imaginaries- Understanding Geo-consciousness and Extraction in Indigenous Communities			Decelerating Education	Shaping policies for a "new normal"	Optimizing land and water use for multiple environmental policy objectives under climate change – a case study from Austria	Mix							
	Degrowth and the Economic Wellfare of the Austrian School			Sunny Side of the Mountain	Putting Degrowth into Practice	Rethinking organisational efficiency for deep sustainability in the water sector	Towards climate resilient peace: an intersectional and degrowth approach							
	Past and futures of (semi)peripheral forest - the Polish case			Imaginaries Beyond Economics	Participating in the transformation	The plural value of water in a post-growth context: A perspective from Cusco, Peru								
1900	2030	Plenary: George Monbiot
